2022
For more than 160 years, our not-for-profit healthcare collective has set the health and well-being standard for the community. We continue to raise this standard every day by helping anyone in need, members and beyond.

Health insurance is much more than a perk or a benefit. That’s why Providence health insurance goes beyond just numbers. Think of our plans as an extension of the care you already give your employees — a true sense of security, allowing your people to focus on their craft. We call this commitment to care True Health.

This commitment isn’t solely about treating sickness, it’s about investing in health. Providence leverages our own network of doctors, hospitals, clinics, and trusted partners, to deliver on the whole care picture — True Population Health. This means we intervene earlier, improve outcomes, and better the health of the entire community. Because healthcare isn’t a commodity service, it’s a community pursuit.

We all deserve True Health
Commitment to health equity

Health equity is social justice for health. It is achieved by reducing barriers to the highest level of care for everyone. Health disparity became more glaring during COVID-19, with communities of color and marginalized populations being severely and unequally affected.

Providence St. Joseph Health, which serves seven states across the U.S., has made a commitment to invest $50 million over the next five years as part of an effort to reduce health disparities and achieve health equity for our members and communities. These funds will support several major projects and continue to make our response to the impacts of COVID-19 possible and effective.

Plans to fit employees’ lives and lifestyles

Choose from a variety of plans and networks

HSA Qualified plans offer premium savings and encourage members to manage their own healthcare costs. Choice and Connect plans provide integrated care from the team at your home clinic. And, our Option Advantage plans offer a wide range of coverage and deductibles.
Premium savings plans

HSA Qualified plans
Our HSA Qualified plans — both embedded and non-embedded — offer affordable coverage. Pair them with a qualified financial institution for greater retirement savings since HSA’s are owned by individuals and never expire. Within this plan, pharmacy-embedded benefits include a safe harbor formulary providing coverage for most-needed medications before the deductible is met.

Connect plan
This plan, offered only in Oregon, integrates seamlessly with our Providence Medical Group clinics. Connect features lower costs thanks to integrated delivery with non-Providence primary care physicians and specialists working together. It also links to select non-Providence clinics in the Portland metropolitan area.*

Choice plan
Choice plans provide integrated care from the team at your home clinic. Similar to the Connect plan, the Choice plan leverages integrated care from your clinic, and it’s statewide!*
