

Coverage of Affordable Care Act (ACA) Preventive Prescription Medications

Providence Health Plan, in accordance with The Patient Protection and Affordable Care Act (PPACA), provides coverage of the following preventive medication categories without imposing a copayment, coinsurance, or deductible. Coverage of these medications, including over-the-counter (OTC) medications, requires a prescription from a licensed health care provider. Not all medications are covered in full under these categories and may be subject to medical management techniques to determine frequency, method, treatment, setting or medical necessity for non-formulary medications.

Coverage is determined under the terms of your medical plan. For more information about your coverage, please call 1-877-216-3644.

Access to your formulary drug list is available on our website at <https://healthplans.providence.org/members/pharmacy-resources/>.

ASPIRIN 81 MG	Recommended to prevent cardiovascular disease when the potential benefit due to a reduction in myocardial infarctions outweighs the potential harm due to an increase in gastrointestinal hemorrhage. Also recommended in pregnant women who have preeclampsia (high blood pressure during pregnancy). Coverage is restricted to <ul style="list-style-type: none">• Men age 50 to 59 years• Women age 12 to 59 years
BOWEL PREPARATION PRODUCTS	Recommended as a part of preventive screening colonoscopy procedure for adults ages 45 years and older.
BREAST CANCER PREVENTION DRUGS	Recommended as a primary prevention of breast cancer in women at increased risk for breast cancer. Medications for prevention include tamoxifen or raloxifene. Coverage is restricted to women at increased risk for breast cancer. Coverage does <i>not</i> include uses to treat women diagnosed with breast cancer and/or osteoporosis.
CONTRACEPTION	Recommended for women with reproductive capacity. Coverage is provided for OTC methods, oral and injectable contraceptives, patches, intrauterine devices (IUDs), and emergency contraceptives. Coverage may be restricted to formulary contraceptive only. Coverage does <i>not</i> include abortifacient medications.

Coverage may not be available for group health plans sponsored by religious employers.

FLUORIDE SUPPLEMENTATION

Recommended for preschool children older than 6 months of age whose primary water source is deficient in fluoride.

Coverage is restricted to formulary preparations for children up to 16 years of age.

FOLIC ACID SUPPLEMENTATION

Recommended for all women planning or capable of pregnancy to take a daily supplement containing 0.4 to 0.8 mg of folic acid to lower the risks of birth defects.

Coverage is restricted to formulary prenatal vitamins with folic acid for women up to 59 years of age.

Coverage does *not* include prenatal vitamins that contain docosahexaenoic acid (DHA).

HIV PREVENTION DRUGS

Recommended for persons who are at high risk of HIV acquisition.

Coverage is restricted to medications denoted as ACA Eligible on the formulary.

Coverage does *not* include treatment of HIV.

IRON SUPPLEMENTATION

Recommended for asymptomatic children ages 6 to 12 months who are at increased risk for iron deficiency anemia.

Coverage is restricted to formulary supplements for children up to 12 months of age.

IMMUNIZATION VACCINES

Recommendations for routine vaccinations are provided by the Advisory Committee on Immunization Practices (ACIP) of the Centers for Disease Control and Prevention.

Coverage may be restricted by age and/or gender limitations as recommended by ACIP.

STATINS

Recommended that adults without a history of cardiovascular disease (CVD) (ie, symptomatic coronary artery disease or ischemic stroke) use a low- to moderate-dose statin for the prevention of CVD events and mortality when all of the following criteria are met:

- 1) they are aged 40 to 75 years;
- 2) they have 1 or more CVD risk factors (ie, dyslipidemia, diabetes, hypertension, or smoking); and
- 3) they have a calculated 10-year risk of a cardiovascular event of 10% or greater.

Coverage is restricted formulary generic statins denoted as ACA Eligible on the formulary.

Coverage is restricted to adults between the ages of 40 to 75 years old.

VITAMIN D

Recommended for at risk adults ages 65 years and older.

Coverage is restricted to adults ages 65 years and older.

Below is a list of medications that are considered ACA eligible. This list is not a comprehensive list and is subject to change as ACA guidelines are updated or modified, or upon formulary review by our Pharmacy & Therapeutics Committee. Brand name drugs will not be covered in full when the generic becomes available unless medical necessity of the brand name drug is established. Please refer to the formulary for the most complete and up-to-date covered medications available.

**Please note: When a generic medication is available on the formulary, the brand form of the drug will only be covered in full when deemed medically necessary.*
