Balance billing may apply for out-of-network services.

Maximum Plan Allowance (MPA): The maximum amount the Plan will reimburse providers. The MPA is based on a PPO fee schedule or a contracted rate. Members who go to an Out-of-Network dental provider who has contracted rates with our dental network provider will not be balanced billed for charges above the MPA. For services provided by an Out-of-Network dental provider who does not have contracted rates with our dental network provider, the Plan will reimburse the provider at the MPA, and any amount above the MPA is the member's responsibility.

When a service is provided by an In-Network provider, Usual, Customary and Reasonable (UCR) means charges based on a fee Providence Health Plan has negotiated with In-Network providers for that service. UCR charges will never be less than our negotiated fees.

Multiple plan offerings

Employers can give employees a choice by offering two or three health plans with the defined contribution option.

Advantages for the employer include:

- Wider choice of benefits
- Greater control over coverage to best meet their needs
- Maximizing dollars by choosing lower-priced options

The plans you choose must meet a few guidelines:

- Groups with 1-4 enrolled subscribers can offer up to two plans
- Employer contribution must be at least 50 percent of the employee-only rate for the lowest-cost plan
- Groups with five or more enrolled subscribers can offer up to three plans

Here's an example:

ABC Company has defined a benefit-eligible employee as someone who works 40-plus hours per week. This group has nine employees, six of whom are eligible for benefits, so the group may choose up to three plans.

Plans chosen:

- Plan A = \$560 monthly premium
- Plan B = \$330 monthly premium
- Plan C = \$220 monthly premium

Employer contribution:

This amount is up to the employer, but it must be a minimum of \$110 (50 percent of the lowest premium) in this example.

In-person and virtual care

With several options to choose from, members can get the care they need - at home, or in person - anytime, anywhere.

Primary Care

Visits with a Primary Care Provider (PCP) to establish a relationship and build a personalized health history.

Telehealth (phone or video appointment)*

Members schedule a phone appointment to talk with a primary care provider or specialist from anywhere using a video conferencing platform, such as Zoom.

24/7 Care Advice Line

Members can speak with a registered nurse anytime, any day, when they have a health concern, a sick newborn, or just need advice - it's a simple first step to determine if they need in-person care.

ExpressCare Virtual

Connect in minutes via phone or video to treat conditions like common colds, flu and fever, or infections like pink eye, laryngitis, or bronchitis. Reproductive and pediatric health concerns can be addressed at these virtual visits, along with prescription refills and scheduling labs or procedures.

ExpressCare Clinics

Same-day in-person appointments or walk-ins (where available). Useful for treating common conditions like a cold, sore throat, or allergies.

Urgent Care

Urgent care is where members turn when they can't wait for a primary care appointment, to treat minor injuries like cuts, burns and pains.

Emergency Care

Emergency care is for symptoms like suspected heart attack, severe abdominal pain, poisoning or loss of consciousness.

*Subject to availability, call your provider's office to ask if this is an option.
