

Coding Policy Policy and Procedure		
SUBJECT: Coding Policy 42.0 Modifiers GA, GY, and GZ	DEPARTMENT: Coding Compliance	
ORIGINAL EFFECTIVE DATE: 03/02	DATE(S) REVIEWED/REVISED: 3/03-01/09, 01/10, 01/11, 01/12, 01/13, 01/14, 03/14, 08/14, 12/14, 01/15, 01/16, 04/16, 01/17, 01/18, 01/19, 04/19, 01/20, 01/21	
APPROVED BY: Coding Policy Review Committee	NUMBER: MC 42.0	PAGE: 1 of 1

SCOPE:

Providence Health Plan, Providence Health Assurance, Providence Plan Partners, and Ayin Health Solutions as applicable (referred to individually as “Company” and collectively as “Companies”).

APPLIES TO:

All Providers
All Lines of Business

POLICY:

Modifiers GA, GY, and GZ were developed by CMS for providers to use when billing items and services that are not covered or do not meet the definition of a Medicare benefit. **Company does not recognize these modifiers and does not advise providers to use these modifiers when billing services to Company.**

For providers affected by Senate Bill 204 or for providers who contract specifically with Company to pay using CMS’s Outpatient Prospective Payment System (OPPS), codes billed with modifier GA, GY, or GZ **will deny as provider responsibility**. Therefore, providers are advised not to use these modifiers when billing Company, even for Medicare patients.

Except as stated above, claims will be processed according to the member’s benefits with Company, regardless of modifier GA, GY, or GZ. If the service is not a covered benefit based on the member’s plan with Company, it will deny as member responsibility.

- GA - Waiver of liability statement issued as required by payer policy, individual case
- GY - Item or service statutorily excluded, does not meet the definition of any Medicare benefit or, for Non-Medicare insurers, is not a contract benefit
- GZ - Item or service expected to be denied as not reasonable and necessary

PROCEDURE:

Codes billed with modifier GA, GY, or GZ will deny as provider responsibility for providers affected by Senate Bill 204 or for providers who contract specifically with Company to pay using CMS’s OPPS.

Except for providers affected by Senate Bill 204 or who contract specifically with PHP to pay using CMS’s Outpatient Prospective Payment System (OPPS), codes billed with modifiers GA, GY, or GZ are allowed to go through the system. Benefits are applied as indicated by the member’s coverage.
