**SCOPE:** Providence Health Plan, Providence Health Assurance, Providence Plan Partners, and Ayin Health Solutions as applicable (referred to individually as “Company” and collectively as “Companies”). **The full Company portfolio of current coding policies is available online and can be [accessed here](#).**

### POLICY APPLICATION

- Providence Health Plan Participating Providers       Non-Participating Practitioners  
 Commercial       Medicaid/Oregon Health Plan       Medicare

#### \*Medicaid/OHP Members

Oregon: Services requested for Oregon Health Plan (OHP) members follow the OHP Prioritized List and Oregon Administrative Rules (OARs) as the primary resource for coverage determinations. Coding policy criteria below may be applied when there are no criteria available in the OARs and the OHP Prioritized List.

Guideline Note A5

Oregon Administrative Rules (OAR) 410-120-1990

Oregon Administrative Rule (OAR) 410-123-1265

Oregon Administrative Rule (OAR) 410-170-0080

## POLICY STATEMENT

- I. Telemedicine services are synchronous real-time interactive services utilizing either combined audio-video or audio-only technology. Company provides reimbursement for telemedicine services when the service is medically necessary and supported by evidence-based medical criteria. All providers (including chiropractors and naturopaths) who are credentialed with Company and who are performing services within their scope of license may perform telemedicine services listed on this policy.
- II. [Table 1](#) in this policy lists procedure codes permitted for reporting telemedicine services. The table is divided into two columns based on lines of business, with each column outlining the acceptable telemedicine delivery methods for that line of business. Below are general reporting guidelines by line of business; for detailed information, refer to the individual codes in the list to confirm acceptable delivery methods.
  - A. **Column A- Medicare Advantage Plans-** All services must be provided via interactive audio and video telecommunications system except for those codes marked as “audio” in the appendix
    - i. Audio-Only technology is allowed only if the member is in their home and the distant site physician or practitioner is technically capable of using an interactive audio-visual communication telecommunications system, but the patient is not capable of, or does not consent to, the use of video technology.
  - B. **Column B- Non-Medicare Plans (i.e. Commercial)-** All services may be delivered via interactive audio and video telecommunications system or audio-only technology
- III. Company will allow payment for medically appropriate services identified on [Table 1](#) when performed using a HIPAA compliant device. The following conditions must be met for Company to make payments for telemedicine services listed on this policy:
  - A. The service must be furnished by a physician or authorized practitioner credentialed with Company;
  - B. The physician or practitioner performing the service must be licensed to provide the service under State law;
  - C. Telemedicine services may be billed “incident-to” subject to PHP Reimbursement Policy 5 (Incident-To Services);
  - D. The service is a covered benefit under the member’s plan.
- IV. Online digital evaluation and management services are asynchronous (i.e., not live in real-time), patient-initiated services. Patients initiate these services through Health Insurance Portability and Accountability Act (HIPAA)-compliant secure platforms, such as electronic health record (EHR) portals, secure email, or other digital applications which allow digital communication with the provider

- V. Providers must adhere to coding standards established by recognized regulatory and accrediting bodies, as well as applicable state and federal regulations such as the Health Insurance Portability and Accountability Act (HIPAA).
- VI. Record-keeping standards for in-person visits also apply to telemedicine services. A permanent record of evaluations and follow-up instructions must be maintained in the Member's medical record and be accessible to the Company for review or audit.
- VII. Procedure codes not appearing on [Table 1](#) of this policy are not eligible for reimbursement when delivered as a telemedicine service.

## PROCEDURE

### GENERAL

The use of a telecommunication system may substitute for a face-to-face, "hands on" encounter for services listed on this policy. The CPT/HCPCS codes covered by this policy are listed on [Table 1](#) at the end of the policy. Telemedicine rules do not apply when the beneficiary and the practitioner are in the same location even if audio-only or audio-video technology assists in furnishing a service.

### ORIGINATING SITE/ FACILITY FEE REQUIREMENTS (HCPCS code Q3014)

The payment rules for originating sites (HCPCS code Q3014) only apply when the patient is physically at a location facilitating the telehealth services (e.g., outpatient hospital or doctor's office) and the healthcare provider is in a different, distant location.

- Submit claims with type of service (TOS) "9, other items and services"
- Submit claims on bill type 12X, 13X, 22X, 23X, 71X, 72X, 73X, 76X, and 85X.
- Submit claims under revenue code 078X, unless otherwise applicable.
- Place of service code "11" is the only reimbursable setting for reporting HCPCS code Q3014
  - The provider who bills the originating site facility fee may not be the same provider (or the same provider group or the same tax identification number) as the provider who is billing for services performed.
- Modifier G0 (Telehealth services for diagnosis, evaluation, or treatment, of symptoms of an acute stroke) may be appended to HCPCS code Q3014 to indicate acute stroke telehealth; not required but does not affect payment.

### MODIFIERS

- Modifier 93 or modifier FQ are required when reporting audio-only services unless the CPT or HCPCS code description identifies the service as "audio-only."

- Modifiers GT, 95, GQ, and G0 are not required but will not affect payment if used.

### **PLACE OF SERVICE CODES**

Telecommunication services on this policy must be reported either with location code 02 or location code 10, unless otherwise specified.

- **Place of Service 02:** Patient is located in a hospital or other facility when receiving health services or health related services through telecommunication technology. Services billed with location code 02 will be paid at the facility rate.
  - Do not report location code 02 for Online digital evaluation and management services, these services can not be reported when the patient is hospitalized.
- **Place of Service 10:** Patient is located in a private residence (or any location other than a hospital or other facility) when receiving health services or health related services through telecommunication technology. Services billed with location code 10 will be paid at the non-facility rate.

### **INPATIENT TELEHEALTH CONSULTATIONS (HCPCS CODES G0425-G0427 AND G0406-G0408)**

Consultations via telecommunication can substitute for face-to-face encounters for initial and follow-up consultations when the following conditions are met.

- Furnished to Company members in hospitals or skilled nursing facilities via telecommunication technology
- Consultation request may come from physician of record, attending physician or another appropriate source
- Practitioner providing consultation may not be the practitioner of record or attending physician
- Inpatient telehealth consultation service must be distinct from care provided by the physician or practitioner of record or the attending physician.

### **ONLINE DIGITAL EVALUATION AND MANAGEMENT (CPT CODES 99421-99423 and 98970-98972)**

Online digital evaluation and management services are non-face-to-face encounters originating from the established patient to a health care professional for evaluation or management of a problem utilizing internet resources. The service includes all communication, prescription, and laboratory orders with permanent storage in the patient's medical record.

- CPT guidelines for the appropriate use of these codes must be adhered to.
- Online digital evaluation and management services are asynchronous (i.e., not live in real-time), patient-initiated services
- Reported only for established patients
- Provider must be credentialed with PHP. No "incident-to" reporting.
- CPT code 99421-99423 and 98970-98972 may not be reported for non-evaluative electronic services such as communication of test results.
- These services are non-reimbursable for members who are hospitalized, including inpatient, outpatient, or observation status.

- Use place of service codes 10, 11, 12 or 99. The same payment rate applies to all location codes.
- Modifiers GT and 95 are not required but will not affect payment if used.

### **SYNCHRONOUS AUDIO-VIDEO EVALUATION AND MANAGEMENT (CPT CODES 98000-98007)**

Evaluation and Management services for new and established patients delivered by synchronous audio-video communication technology.

- Company does not recognize CPT codes 98000-98007 for telemedicine services. Providers may use CPT codes 99202-99215 with location code 02 or 10 for synchronous audio-video visits.

### **SYNCHRONOUS AUDIO-ONLY EVALUATION AND MANAGEMENT SERVICES (CPT CODES 98008-98015) AND VIRTUAL CHECK IN (CPT CODE 98016)**

Synchronous audio-only evaluation and management services are reported for new and established patients when delivered by synchronous audio-only communication technology. Report CPT code 98016 for established patient initiated virtual check-in to determine if another E/M service is necessary.

- CPT codes 98008-98015 may be reported for **Commercial** lines of business only.
- To report office/outpatient evaluation and management (E/M) services provided to **Medicare Advantage** members via audio-only communication technology report the appropriate E/M code (CPT code 99202-99215) along with the appropriate modifier (93/FQ) and place of service code 10.
  - Reporting of office/outpatient E/M services delivered via audio-only technology for **Medicare Advantage** members is allowed only if the member is in their home and the distant site physician or practitioner is technically capable of using an interactive audio-visual communication telecommunications system, but the patient is not capable of, or does not consent to, the use of video technology.
- CPT guidelines for the appropriate use of these codes must be adhered to.
- Provider must be credentialed with PHP. No “incident-to” reporting.
- CPT codes 98008-98016 may not be reported for non-evaluation purposes such as communication of test results.
- CPT code 98011 is used to report encounters with a duration of 60 minutes or longer. No additional reimbursement is made for encounters longer than 60 minutes. Company does not recognize CPT code 99147. See Coding Policy 52.0 (Medical Visits)

### **TELEPHONE SERVICES, NON-PHYSICIAN QUALIFIED HEALTHCARE PROFESSIONAL (CPT CODES 98966-98968)**

Telephone assessment services provided by a nonphysician qualified healthcare professional reported for established patients.

- CPT guidelines for the appropriate use of these codes must be adhered to.
- Provider must be credentialed with PHP. No “incident-to” reporting.
- CPT code 98968 is used to report encounters with a duration of 21 minutes or longer. No additional reimbursement is made for encounters longer than 30 minutes

## PREVENTIVE MEDICINE SERVICES

Preventive medicine services (CPT codes 99381-99397) are paid by Company when performed using telecommunication technology. Use either location code 02 or location code 10 as appropriate based on the patient's location and append Modifier 52 to the CPT code.

- Modifier 52 is **required** for preventive medicine codes performed as telehealth services.
- Either modifier 93 or modifier FQ is **required** for preventive medicine services performed using audio-only communication technology. Use of these modifiers will not affect payment.

## POLICY REVISION HISTORY

Date	Revision Summary
02/2026	New Policy. Merged CP 53.0 and 92.0. Replaces CP 67.0.A and 67.0.E.
03/2026	Interim Update. Added "Telephone Services, Non-Physician Qualified Healthcare Professional" description. Updated Synchronous Audio-Only guidance to show codes 98008-98015 apply only to commercial LOB. For audio-only E/M services provided to MA members, report appropriate E/M codes 99202-99215 with modifier 93/FQ and POS 10. Updated Accepted Telemedicine Codes list to show 99202-99215 may be delivered via audio or two-way video technology for MA members and codes 98008-98015 are non-covered services for MA members, effective 04/01/26.
