

MEDICAL POLICY COMMITTEE: EXTERNAL PHYSICIAN REVIEW

PHP/PHA Medical Policy Committee is looking to expand our group of external physicians who serve as clinical subject matter experts (SMEs) through the policy development and annual review processes. We are seeking practicing physicians across various clinical specialties who will review and provide feedback on our medical policies. The medical policy specialties include (but are not limited to) pain management, behavioral health, endocrinology, genetics, orthopedics, neurology, urology, cardiology, oncology, and general surgery. A complete list of medical policies is [available here](#).

Physician SME responsibilities would include:

- Reviewing medical policies and providing feedback during the annual review and policy development process.
- Working with Medical Policy Analysts and Medical Directors to address any feedback.
- Responding to any questions that may arise throughout the year related to medical policies of their speciality.

The above tasks would occur via email or ad hoc virtual meetings.

If you are interested in becoming an external physician reviewer, please contact the medical policy team at PHPMedicalPolicy@providence.org with the following information:

- Name
- Speciality
- Email
- Phone number
- Are there any specific medical policies you are interested in reviewing, or should we just include you in any policies related to your speciality?

Thank you, and we look forward to hearing from you.
