The following Centers for Medicare & Medicaid Service (CMS) guidelines should be utilized for medical necessity coverage determinations. Click the link provided in the table below to access applicable medical necessity criteria. All listed guidelines apply.

Service	Medicare Guidelines
<i>Lipid Testing</i>	National Coverage Determination (NCD) for Lipid Testing ( <a href="#">190.23</a> ) (For ICD-10 code guidance, see “Billing Guidelines” below)

**BILLING GUIDELINES**

The following CPT/HCPCS codes may be covered when billed with one of the ICD-10 codes that Medicare has included as medically necessary in the most recent *Medicare National Coverage Determinations (NCD) Coding Policy Manual and Change Report (ICD-10-CM)*. Available for download at: [Lab NCDs – ICD-10](#). Select the “Lab Code List ICD10 (ZIP)” file option that aligns with the date services were or will be rendered from the Downloads section. Open a spreadsheet and look for NCD 190.23 in column A. This resource can also be accessed directly from the NCD noted above, under “Revision History” and by selecting the applicable “Covered Code List” version. While these services do not require prior authorization, utilization may be subject to audit and all criteria from NCD 190.23 must be met. Thus, inclusion of a diagnosis (ICD-10) code on this list may not warrant automatic coverage.
