

MEDICAL POLICY	Intraoperative Monitoring (Medicare Only)
Effective Date: 10/1/2022	Medical Policy Number: 296
 10/1/2022	Medical Policy Committee Approved Date: 9/2021; 9/2022
Medical Officer	Date

See Policy CPT/HCPCS CODE section below for any prior authorization requirements

SCOPE:

Providence Health Plan, Providence Health Assurance, Providence Plan Partners, and Aycin Health Solutions as applicable (referred to individually as “Company” and collectively as “Companies”).

APPLIES TO:

Medicare Only

MEDICARE POLICY CRITERIA

The following Centers for Medicare & Medicaid Service (CMS) guidelines should be utilized for medical necessity coverage determinations. Click the link provided in the table below to access applicable medical necessity criteria. All listed guidelines apply.

Note:

- This policy does not address sensory nerve conduction tests (sNCT; G0255) or nerve conduction studies (95905, 95907-95912). For these services, see “[Medical Policy Cross References](#)” below.

Service	Medicare Guidelines
<i>Electroencephalographic Monitoring During Surgical Procedures Involving the Cerebral Vasculature</i>	National Coverage Determination (NCD) for Electroencephalographic Monitoring During Surgical Procedures Involving the Cerebral Vasculature (160.8)
<i>All other intraoperative neurophysiological testing</i>	Company medical policy for Intraoperative Monitoring (All Lines of Business Except Medicare)

MEDICAL POLICY	Intraoperative Monitoring (Medicare Only)
-----------------------	--

	<p>I. This service may be considered medically necessary for Medicare when the Company medical policy criteria are met.</p> <p>II. This service is considered not medically necessary for Medicare when the Company medical policy criteria are not met. <u>See Policy Guidelines below.</u></p>
--	---

POLICY GUIDELINES

Medicare and Medical Necessity

For Medicare, only medically reasonable and necessary services or items which treat illness or injury are eligible for Medicare coverage, as outlined in *Title XVIII of the Social Security Act, §1862(a)(1)(A)*.

The Company policy for *PHA Medicare Medical Policy Development and Application (MP50)* provides details regarding Medicare’s definition of medical necessity and the hierarchy of Medicare references and resources during the development of medical policies, as well as the Plan’s use of evidence-based processes for policy development. In the absence of Medicare coverage policies (e.g., manual, national coverage determination [NCD], local coverage determination [LCD], article [LCA], etc.), Medicare regulatory guidelines do allow Medicare Advantage Organizations (MAOs) to make their own coverage determinations, as long as the MAO applies an objective, evidence-based process, based on authoritative evidence. (*Medicare Managed Care Manual, Ch. 4, §90.5*)

BILLING GUIDELINES

General

- According to the *National Physician Fee Schedule Relative Value File (NPF SRVF)*, which is published by Medicare,¹ CPT code 95941 has been assigned a Medicare status indicator of "I," which means Medicare has deemed this code to be invalid for Medicare use. In addition, according to the National Correct Coding Initiative (NCCI), Chapter XI: "CPT code 95941 describes continuous intraoperative neurophysiology monitoring from outside the operating room (remote or nearby) or monitoring of more than one case while in the operating room. This code is not valid for Medicare practitioner services. It is a packaged service under Medicare Hospital OPPS (Outpatient Prospective Payment System)."² Therefore, CPT code 95941 is not eligible for reimbursement in any setting and is the reason for the Medicare "invalid" designation.
- In addition, CPT 95941 is not covered according to the Company Coding Policy (*Intraoperative Neurophysiology, 89.0*).

MEDICAL POLICY	Intraoperative Monitoring (Medicare Only)
-----------------------	--

- G0453 – Remote IONM Professional services per 15 min of focused attention on one patient. This does not need to be continuous. Total professional time is the sum of all focused time spent on patient. At least 8 minutes of care must have been performed in order to bill for a 15 minute interval. (i.e., Professional time of 20 minutes—bill G0453 x 1. Professional time of 23 minutes, bill G0453 x 2.)
- CPT 95937 – Neuromuscular Junction Testing is same as Train of Four (To4) testing and is a routine part of anesthesia care and is not a separately billable service.
- CPT 95861 (EMG) and 95938 (SSEP) should not be billed together for the same episode of intraoperative monitoring.
- Please refer to Company [Coding Policy \(Intraoperative Neurophysiology, 89.0\)](#) for additional information.

HCPCS code S3900

Like all S-codes, the NPF SRVF also indicates HCPCS code S3900 has been assigned a Status Indicator of “I.” This is defined as “Not valid for Medicare purposes.” In addition, HCPCS code S3900 is not recognized as a valid code for claim submission as indicated in the relevant Company Coding Policy (*HCPCS S-Codes and H-Codes, 22.0*). Providers need to use alternate available CPT or HCPCS codes to report for the service. If no specific CPT or HCPCS code is available, then an unlisted code may be used. Note that unlisted codes are reviewed for medical necessity, correct coding, and pricing at the claim level. Thus, if an unlisted code is billed related to a non-covered service addressed in this policy, it will be denied as not covered.

CPT/HCPCS CODES

Medicare Only		
<p><u>Note:</u></p> <ul style="list-style-type: none"> • Prior authorization for intraoperative neurophysiological testing and monitoring (CPT: 95940; HCPCS: G0453) may be required depending on the diagnosis codes billed. • Intraoperative neurophysiological testing and monitoring (CPT: 95940; HCPCS: G0453) will deny as not medically necessary and not covered when performed during lumbar surgery below spinal column level L1-L2 and/or during cervical spine surgery • Please refer to the appropriate section of the Billing Guideline Appendix linked below. 		
95940	Continuous intraoperative neurophysiology monitoring in the operating room, one on one monitoring requiring personal attendance, each 15 minutes (List separately in addition to code for primary procedure)	<ul style="list-style-type: none"> • Prior authorization is required when billed with these diagnosis codes: LINK
G0453	Continuous intraoperative neurophysiology monitoring, from outside the operating room (remote or nearby), per patient, (attention directed exclusively to one	<ul style="list-style-type: none"> • Intraoperative monitoring is considered <u>not medically</u>

MEDICAL POLICY	Intraoperative Monitoring (Medicare Only)
-----------------------	--

	patient) each 15 minutes (list in addition to primary procedure)	necessary when billed with these diagnosis codes: LINK
--	--	--

No Prior Authorization Required

Note: Inclusion of a code in this section does not guarantee reimbursement or coverage. The following codes do not require routine review for medical necessity, but they may be subject to audit or benefit denial.

Electroencephalogram (EEG)	
95707	Electroencephalogram (EEG), without video, review of data, technical description by EEG technologist, 2-12 hours; with continuous, real-time monitoring and maintenance
95717	Electroencephalogram (EEG), continuous recording, physician or other qualified health care professional review of recorded events, analysis of spike and seizure detection, interpretation and report, 2-12 hours of EEG recording; without video
95812	Electroencephalogram (EEG) extended monitoring; 41-60 minutes
95813	Electroencephalogram (EEG) extended monitoring; 61-119 minutes
95822	Electroencephalogram (EEG); recording in coma or sleep only
95955	Electroencephalogram (EEG) during nonintracranial surgery (eg, carotid surgery)
95957	Digital analysis of electroencephalogram (EEG) (eg, for epileptic spike analysis)
Somatosensory Evoked Potential (SSEP)	
95925	Short-latency somatosensory evoked potential study, stimulation of any/all peripheral nerves or skin sites, recording from the central nervous system; in upper limbs
95926	Short-latency somatosensory evoked potential study, stimulation of any/all peripheral nerves or skin sites, recording from the central nervous system; in lower limbs
95927	Short-latency somatosensory evoked potential study, stimulation of any/all peripheral nerves or skin sites, recording from the central nervous system; in the trunk or head
95938	Short-latency somatosensory evoked potential study, stimulation of any/all peripheral nerves or skin sites, recording from the central nervous system; in upper and lower limbs
Motor Evoked Potential (MEP)	
95928	Central motor evoked potential study (transcranial motor stimulation); upper limbs
95929	Central motor evoked potential study (transcranial motor stimulation); lower limbs
95939	Central motor evoked potential study (transcranial motor stimulation); in upper and lower limbs
Auditory Brainstem Evoked Potential/Brainstem Auditory Evoked Potential (ABR/BAEP)	
92652	Auditory evoked potentials; for threshold estimation at multiple frequencies, with interpretation and report
92653	Auditory evoked potentials; neurodiagnostic, with interpretation and report
Peripheral Nerve Stimulation	
95885	Needle electromyography, each extremity, with related paraspinal areas, when performed, done with nerve conduction, amplitude and latency/velocity study; complete, five or more muscles studied, innervated by three or more nerves or four or more spinal levels (List separately in addition to code for primary procedure)
95886	Needle electromyography, each extremity, with related paraspinal areas, when performed, done with nerve conduction, amplitude and latency/velocity study; limited (List separately in addition to code for primary procedure)

MEDICAL POLICY	Intraoperative Monitoring (Medicare Only)
----------------	--

95887	Needle electromyography, non-extremity (cranial nerve supplied or axial) muscle(s) done with nerve conduction, amplitude and latency/velocity study (List separately in addition to code for primary procedure)
95907	Nerve conduction studies; 1-2 studies
95908	Nerve conduction studies; 3-4 studies
95909	Nerve conduction studies; 5-6 studies
95910	Nerve conduction studies; 7-8 studies
95911	Nerve conduction studies; 9-10 studies
95912	Nerve conduction studies; 11-12 studies
95913	Nerve conduction studies; 13 or more studies
Oculomotor, Facial, Trigeminal and Lower Cranial Nerve Monitoring	
95867	Needle electromyography; cranial nerve supplied muscle(s), unilateral
95868	Needle electromyography; cranial nerve supplied muscles, bilateral
95933	Orbicularis oculi (blink) reflex, by electrodiagnostic testing
Free-Running Electromyography (EMG)	
51785	Needle electromyography studies (EMG) of anal or urethral sphincter, any technique
95860	Needle electromyography; 1 extremity with or without related paraspinal areas
95861	Needle electromyography; 2 extremities with or without related paraspinal areas
95863	Needle electromyography; 3 extremities with or without related paraspinal areas
95864	Needle electromyography; 4 extremities with or without related paraspinal areas
95870	Needle electromyography; limited study of muscles in 1 extremity or non-limb (axial) muscles (unilateral or bilateral), other than thoracic paraspinal, cranial nerve supplied muscles, or sphincters
Miscellaneous	
95930	Visual evoked potential (VEP) checkerboard or flash testing central nervous system except glaucoma, with interpretation and report
95937	Neuromuscular junction testing (repetitive stimulation, paired stimuli), each nerve, any 1 method
Not Covered	
95941	Continuous intraoperative neurophysiology monitoring, from outside the operating room (remote or nearby) or for monitoring of more than one case while in the operating room, per hour (List separately in addition to code for primary procedure)
S3900	Surface electromyography (EMG)

INSTRUCTIONS FOR USE

Company Medical Policies serve as guidance for the administration of plan benefits. Medical policies do not constitute medical advice nor a guarantee of coverage. Company Medical Policies are reviewed annually and are based upon published, peer-reviewed scientific evidence and evidence-based clinical practice guidelines that are available as of the last policy update. The Companies reserve the right to determine the application of Medical Policies and make revisions to Medical Policies at any time. Providers will be given at least 60-days notice of policy changes that are restrictive in nature.

MEDICAL POLICY	Intraoperative Monitoring (Medicare Only)
-----------------------	--

The scope and availability of all plan benefits are determined in accordance with the applicable coverage agreement. Any conflict or variance between the terms of the coverage agreement and Company Medical Policy will be resolved in favor of the coverage agreement.

REGULATORY STATUS

Mental Health Parity Statement

Coverage decisions are made on the basis of individualized determinations of medical necessity and the experimental or investigational character of the treatment in the individual case. In cases where medical necessity is not established by policy for specific treatment modalities, evidence not previously considered regarding the efficacy of the modality that is presented shall be given consideration to determine if the policy represents current standards of care.

BILLING GUIDELINES APPENDIX

Prior Authorization Required

Intraoperative neurophysiological testing and monitoring (CPT: 95940; HCPCS: G0453) will require prior authorization when billed with any of the following diagnosis codes:

M40.03	M40.55	M41.127	M41.57	M47.11
M40.04	M40.56	M41.22	M41.82	M47.12
