**APPLIES TO:**

Medicare Only

**MEDICARE POLICY CRITERIA**

**NOTES:**

- While the noted local coverage determinations (LCDs) provide most of the medical necessity criteria, the related local coverage articles (LCAs) also provide coverage and non-coverage guidance for some products. For a given device and all accessories, **all** of the Medicare policies relevant to that device should be reviewed and considered.
- Not all accessories are considered medically reasonable and necessary under Medicare, even if the base item is medically necessary. Review of all references is required to ensure accurate coverage for all components and accessories.

See *Policy Guidelines* below for more important information.

The following Centers for Medicare & Medicaid Service (CMS) guidelines should be utilized for medical necessity coverage determinations. Click the link provided in the table below to access applicable medical necessity criteria. All listed guidelines apply.

Service	Medicare Guidelines	<b>HCPSC Code(s)</b> <i>(Inclusion of a code does not imply coverage and some codes may be addressed in more than one reference)</i>
<i>All mobility assistive equipment (MAEs)</i>	National Coverage Determination (NCD) for <i>Mobility Assistive Equipment (MAE)</i> ( <a href="#">280.3</a> )	This NCD provides general coverage criteria and applies to all MAE, from canes to power operated vehicles. Most noteworthy, Medicare requires requested DME items to be <b>both</b> medically necessary <b>and</b> reasonable, which includes determining if there is a “less costly alternative” which can provide the necessary and appropriate therapeutic benefit for the individual (e.g., if a functional mobility deficit can be sufficiently resolved with a cane, a wheelchair would not be considered reasonable and necessary, even if applicable criteria appear to be met). NCD 280.3 notes sequential criteria to determine the equipment that is of the appropriate type and complexity to restore the beneficiary’s ability to participate in MRADLs. A flow chart to guide this decision-making can be found in CMS <a href="#">Transmittal Change Request 3791</a> (page 19).

**POLICY GUIDELINES**

*Use of Mobility Device Outside of the Home*

While members who qualify for coverage of a wheelchair may use the device outside the home, coverage of a wheelchair under Medicare is determined solely by the beneficiary’s mobility needs **within** the home. Therefore, the documentation must clearly distinguish the abilities and needs of the individual within the home from any *additional* needs for use outside the home.

*Heavy Duty, Very Heavy Duty and Extra Heavy Duty Options*

Heavy duty, very heavy duty, and extra heavy duty mobility options have specific weight requirements. If a heavy duty, very heavy duty, or extra heavy duty manual wheelchair, PWC or POV is provided, but the beneficiary’s weight is outside the range listed in the criterion, the item will be denied as not medically reasonable and necessary.

**BILLING GUIDELINES**

See associated local coverage articles (LCAs) for coding and billing guidance:

- Local Coverage Article: Manual Wheelchair Bases - Policy Article ([A52497](#))
- Local Coverage Article: Wheelchair Options/Accessories - Policy Article ([A52504](#))
- Local Coverage Article: Power Mobility Devices - Policy Article ([A52498](#))
- Local Coverage Article: Wheelchair Seating - Policy Article ([A52505](#))

These LCAs provide a large amount of information with respect to coding and billing, as well as what may or may not be covered and what components of a wheelchair might be bundled into the initial provision of a chair.

*Incidental To Denials*

Certain components and accessories of a wheelchair are included in the reimbursement of the base chair, and thus, are not eligible for separate reimbursement at initial issue.

To determine if additional components may be approved separately, see the LCAs A52498 and A52504.

According to LCA A52498, “All accessories needed for safe operation” are included on initial issue and thus are not allowed separate payment, nor should they be separately reported at the time of initial issue, even if the HCPCS code used is not included in the Column I/Column II table in LCA A52504. In addition, not all accessories will be considered medically necessary because they may not meet the definition of DME, as defined by Medicare.

The LCA for *Wheelchair Options/Accessories - Policy Article (A52504)* provides a detailed up-to-date table to determine which items or components would be considered incidental to/included in the allowance for the base item listed in Column I, which means separate reimbursement will not be provided for these items.

**INSTRUCTIONS FOR USE**

Company Medical Policies serve as guidance for the administration of plan benefits. Medical policies do not constitute medical advice nor a guarantee of coverage. Company Medical Policies are reviewed annually and are based upon published, peer-reviewed scientific evidence and evidence-based clinical practice guidelines that are available as of the last policy update. The Companies reserve the right to determine the application of Medical Policies and make revisions to Medical Policies at any time. Providers will be given at least 60-days notice of policy changes that are restrictive in nature.

The scope and availability of all plan benefits are determined in accordance with the applicable coverage agreement. Any conflict or variance between the terms of the coverage agreement and Company Medical Policy will be resolved in favor of the coverage agreement.

**REGULATORY STATUS**

Mental Health Parity Statement

Coverage decisions are made on the basis of individualized determinations of medical necessity and the experimental or investigational character of the treatment in the individual case. In cases where medical necessity is not established by policy for specific treatment modalities, evidence not previously

considered regarding the efficacy of the modality that is presented shall be given consideration to determine if the policy represents current standards of care.
