MEDICAL POLICY

Durable Medical Equipment (All Lines of Business Except Medicare)

Effective Date: 5/1/2021

Medical Policy Number: 142

Medical Policy Committee Approved Date:
5/95; 1/98; 1/99; 1/00; 1/001; 2/03; 2/04; 3/05; 7/05; 1/06; 1/08; 3/10; 2/12; 6/13; 7/13; 10/14; 10/15; 10/16; 12/16; 1/18; 1/19; 2/2020; 4/2020; 4/2021

See Policy CPT/HCPCS CODE section below for any prior authorization requirements

SCOPE:

Providence Health Plan, Providence Health Assurance, Providence Plan Partners, and Ayin Health Solutions as applicable (referred to individually as “Company” and collectively as “Companies”).

APPLIES TO:

All lines of business except Medicare

BENEFIT APPLICATION

Medicaid Members

Oregon: Services requested for Oregon Health Plan (OHP) members follow the OHP Prioritized List and Oregon Administrative Rules (OARs) as the primary resource for coverage determinations. Medical policy criteria below may be applied when there are no criteria available in the OARs and the OHP Prioritized List.

POLICY CRITERIA

This policy is based on the Centers of Medicare and Medicaid Services (CMS) National Coverage Determination (NCD) 280.1, Title: Durable Medical Equipment Reference List, effective 05/05/2005, and Medicare Benefit Policy Manual. Chapter 15 – Covered Medical and Other Health Services. 110.1 Definition of Durable Medical Equipment (Rev. 228, 10-13-16).1,2

I. Durable Medical Equipment (DME) may be considered medically necessary and covered when all of the following criteria below are met:

A. The equipment must be medically necessary for the treatment of a covered illness or injury or to improve the functioning of a malformed, diseased, or injured body part or reduce further deterioration of the patients physical condition; and
B. The equipment is used in the patients home; and
C. The equipment is used primarily and customarily to serve a medical purpose, rather than primarily for transportation, comfort or convenience; and
D. The equipment provides the medically appropriate level of performance and quality for the medical condition present, that is, non-luxury and not deluxe; and
E. DME for patients in facilities that provide ordinary medical equipment is excluded; and
F. DME benefit is limited to either the total rental cost or the purchase price, whichever is less.

Examples of COVERED DME: (not all inclusive)

1. Alternating pressure pad/mattress,
2. Bed pans
3. Blood glucose monitor
4. Cane
5. Commode
6. Continuous motion device (Medicare Only)
7. Continuous positive pressure airway device
8. Crutches
9. Face masks (oxygen)
10. Gel flotation pad
11. Heat Lamp
12. Heating pad
13. Infusion pump
14. Intermittent positive pressure breathing machines
15. IPPM machine
16. Lymphedema pump
17. Mattress (if hospital bed covered)
18. Muscle stimulator (for specific conditions)
19. Nebulizer
20. Oxygen humidifiers (if oxygen prescribed)
21. Oxygen mask
22. Oxygen regulator
23. Percussor
24. Postural drainage boards (if chronic pulmonary condition)
25. Quad canes (if MAE met)
26. Rolling chairs (if MAE met)
27. Safety roller (if MAE met)
28. Seat lift mechanism of seat lift chair
29. Sitz bath
30. Speech generating devices
31. Suction machine
32. Syringes
MEDICAL POLICY

Durable Medical Equipment (All Lines of Business Except Medicare)

33. Traction
34. Trapeze bars
35. Ultraviolet cabinet
36. Urinal
37. Vaporizer
38. Ventilator
39. Walker
40. Wheelchair
41. Whirlpool bath equipment

II. Supplies and Accessories which are necessary for the effective use of durable medical equipment, may be considered medically necessary and covered. Examples include but are not limited to:

A. Drugs/biologics such as Albuterol for nebulizer therapy,
B. Chemstrips and lancets
C. Oxygen for regulator and portable gas systems

III. Durable Medical Equipment (DME) is considered not medically necessary and not covered if:

A. The equipment does not serve a medical purpose
B. The equipment is duplicative
C. The equipment serves comfort or convenience functions or is primarily for the convenience of a person caring for the patient
D. The equipment is for first aid or other precautionary-type equipment
E. The equipment is a self-help device or training equipment for the environmental setting
F. The equipment exceeds the appropriate level of performance (luxury or deluxe)
G. The equipment exceeds the total rent cost or purchase price, whichever is less

Examples of NON-COVERED DME: (not all inclusive)
1. Ace bandages
2. Air cleaners
3. Air conditioners
4. Baby scales
5. Bags
6. Bathroom equipment (shower bench, raised toilet seat, tub lifts, etc.)
7. Bed baths
8. Bed lifters
9. Bed boards
10. Beds lounges (power or manual)
11. Beds Oscillating
<p>| 12. Bed wetting prevention devices |
| 13. Bladder stimulators (pacemakers) |
| 14. Blood glucose analyzers (reflectance colorimeter) |
| 15. Bracelets (Medical alert) |
| 16. Car seats |
| 17. Carafes |
| 18. Catheters [nonreusable disposable supply (§1861(n) of the Act). (See The Medicare Claims Processing Manual, Chapter 20, DMEPOS).] |
| 19. Cradles |
| 20. Dehumidifiers |
| 21. Diathermy machines (standard or pulsed) |
| 22. Disposable sheets or bags |
| 23. Elastic stockings (TED hose, surgical stockings; see Compression Hose Stocking medical policies for criteria regarding compression hose) |
| 24. Electric air cleaner |
| 25. Electrostatic machines |
| 26. Elevators |
| 27. Emesis basins |
| 28. Environmental control devices or that enhance the environmental setting (ergonomic chairs, desks, etc.) |
| 29. Esophageal dilators |
| 30. Exercise equipment |
| 31. Fabric supports |
| 32. Face masks, surgical |
| 33. Feminine hygiene products |
| 34. Generators |
| 35. Hand controls for vehicles |
| 36. Heat and massage foam cushions |
| 37. Heating and cooling plants |
| 38. Hose, support |
| 39. Hot tubs and spas |
| 40. Humidifier |
| 41. Identification tags |
| 42. Incontinence pads |
| 43. Irrigating kits |
| 44. Jacuzzis |
| 45. Leotards |
| 46. Low vision aids |
| 47. Massage chair or devices |
| 48. Mobility monitors |
| 49. Oscillating Beds |
| 50. Over-bed table |
| 51. Paraffin bath units |</p>

IV. Durable Medical Equipment (DME) that serves as back up equipment or is duplicative is considered **not medically necessary and not covered.**

**POLICY GUIDELINES**

**Same or Similar Equipment**

Although an item may be classified as durable medical equipment, it may not be covered in every instance. Coverage in a particular case, such as same or similar equipment is subject to the requirement that the equipment be necessary and reasonable.

Reasonableness of equipment; even though an item of durable medical equipment may serve a useful medical purpose the intermediary will also want to consider to what extent, if any, it would be reasonable to cover the item prescribed. The following considerations will enter into the intermediary’s determination of reasonableness;
1. Would the expense of the item be clearly disproportionate to the therapeutic benefits which could ordinarily be derived from use of the equipment?
2. Is the item substantially more costly than a medically appropriate and realistically feasible alternative of care?
3. Does the item service essentially the same purpose as equipment already available to the patient?

Same or similar equipment rules may not apply to situations where a new device with additional technological features becomes available. The DMERC must evaluate whether the new feature(s) meets the patient’s medical need that is not met by the patients’ current equipment. If the new feature or device meets a current medical need that is not met by the current equipment because the appropriate technology was not available at the time the patient purchased the item, even if there has been no change in the patient’s condition, the 5-year useful lifetime rules do not apply, the new item may be provided. However, if the new item is meeting the same medical need as the old item, but in a more efficient manner or is more convenient, and there is no change in the patient’s condition, the new item is NOT covered.

Repairs, Maintenance, Replacement:

- To repair means to fix or mend and to put the equipment back in good condition after damage or wear. Repairs to equipment which a patient owns are covered when necessary to make the equipment serviceable. If the expense for repairs exceeds the estimated expense of purchasing or renting another item of equipment for the remaining period of medical need, no payment can be made for the amount of the excess. Repairs and maintenance of rental or rent to purchase equipment is the responsibility of the durable medical equipment provider and are not covered by the Plan. This includes items in the frequent and substantial servicing, oxygen equipment, capped rental and inexpensive or routinely purchased payment categories which are being rented.

Repair charges may include the cost of a loaner.

A new certificate of medical necessity and/or physician’s order is not needed for repairs.

Maintenance; routine periodic servicing, such as testing, cleaning, regulation, and checking of the patient’s equipment are not covered. Such routine maintenance is generally expected to be done by the owner rather than by a retailer or some other person who would charge the patient. Normally, purchasers of durable medical equipment are given operating manuals which describe the type of servicing an owner may perform to properly maintain the equipment. Thus, hiring a third party to do such work would be for the convenience of the patient and would not be covered. However, more extensive maintenance, which, based on the manufactures recommendation, is to be performed by authorized technicians, would be covered as repairs. Example; breaking down of sealed components and performing tests which require specialized testing equipment not available to the patient.
Maintenance of purchased items that require frequent and substantial servicing or oxygen equipment is not covered. Maintenance of rented equipment is not covered.

A new certificate of medical necessity and/or physician’s order is not needed for covered maintenance.

- Replacement refers to the provision of an identical or nearly identical item. Equipment which the patient owns or is a capped rental item may be replaced in cases of irreparable wear and when required because of a change in the patient’s condition, loss or irreparable damage.

Irreparable wear refers to deterioration sustained from day to day usage over time and a specific event cannot be identified. Replacement of equipment due to irreparable wear takes into consideration the reasonable useful lifetime of the equipment.

The reasonable useful lifetime of durable medical equipment cannot be less than 5 years. Computation of the useful lifetime is based on when the equipment is delivered to the patient, not the age of the equipment. Replacement due to wear is not covered during the reasonable useful lifetime of the equipment. During the reasonable useful lifetime, repair up to the cost of replacement (but not actual replacement) is covered.

Replacement may be covered when there is a change in the patient’s condition with a new physician order.

Irreparable damage refers to a specific accident or to a natural disaster (e.g., fire, flood, etc.). In the event of a third party liability the repair and/or replacement of equipment owned by the patient is not a covered benefit.

Replacement requests suggesting malicious damage, culpable neglect or wrongful disposition of equipment are not covered.

**DESCRIPTION**

Durable Medical Equipment (DME) is medical equipment prescribed by a physician or appropriate health care provider, as part of a medical therapeutic plan.

Durable medical equipment (DME) is a specific treatment modality which:

A. Can withstand repeated use, is not expendable.
B. Is primarily used to serve a medical purpose
C. Is not useful in absence of illness or injury
D. Is appropriate for use in patient’s home
Back up durable medical equipment is defined as an incidental or similar device that is used to meet the same medical need for the patient but is provided for precautionary reasons to deal with an emergency in which the primary piece of equipment malfunctions.

See separate medical policy for “Definition: Mobility Assistive Equipment.”

INSTRUCTIONS FOR USE

Company Medical Policies serve as guidance for the administration of plan benefits. Medical policies do not constitute medical advice nor a guarantee of coverage. Company Medical Policies are reviewed annually and are based upon published, peer-reviewed scientific evidence and evidence-based clinical practice guidelines that are available as of the last policy update. The Companies reserve the right to determine the application of Medical Policies and make revisions to Medical Policies at any time. Providers will be given at least 60-days notice of policy changes that are restrictive in nature.

The scope and availability of all plan benefits are determined in accordance with the applicable coverage agreement. Any conflict or variance between the terms of the coverage agreement and Company Medical Policy will be resolved in favor of the coverage agreement.

REGULATORY STATUS

Mental Health Parity Statement

Coverage decisions are made on the basis of individualized determinations of medical necessity and the experimental or investigational character of the treatment in the individual case. In cases where medical necessity is not established by policy for specific treatment modalities, evidence not previously considered regarding the efficacy of the modality that is presented shall be given consideration to determine if the policy represents current standards of care.
