

## A Message to Our Valued Provider Partners

For more than 42 years, our partnership with you has been central to the care and service we provide to the members and communities we serve. We are deeply and sincerely grateful for your clinical excellence, your collaboration, and the trust you have placed in Providence Health Plan (PHP) over the years.

We recognize that recent news may have created uncertainty, and we want to provide clear reassurance: PHP remains fully operational, and there are no changes to coverage or services for members at this time. Members continue to rely on you for their care, and uninterrupted access remains our highest priority.

We respectfully ask that you continue seeing and treating PHP members as you do today. Your ongoing partnership is essential to ensuring continuity, stability, and high-quality care throughout this transition period.

We will continue to meet our obligations and support both you and PHP members as we move forward. More than anything, we want to express our profound gratitude for the role you have played in our 42-year history. We deeply appreciate your continued dedication during this time.

With heartfelt thanks,

Providence Health Plan
